CRAZY LONG JIG 520g 420g 320g 220g 170g 150g 30g 100g 85g

The characterintic of CRAZY LONG JIG

This jig was made from the concept "big fish is eating large food", and was completed through the repeated test. The motion by the asymmetrical long and slender body is funky and irregular action.

However, the lightness at the time of the retrieve is very good, so that it is called by "the ultra high-speed jig" and another name! This jig also similar to the silhouette of the Pacific saury which attracts attention as a bait fish is a target popular all over the country in recent years. A target is from a huge dogtooth tuna, amberjack tuna to amberjack.

- The ultra high-speed head with little resistance to water.
 - The eye of the large-sized U form which you are easy to put the assistant hook.
 - The ellipse form big eye with the large degree of appeal.
 - Sharp rear which considered the slide
 - The flat body which produces lift.
 - 6 to 4 body which is the center of gravity back a little from the center.
- We developed the completely new jig only for assist hooks, make the most of the strong point of a crazy long jig efficiently.
- By outstanding slider action and the outstanding center of gravity are in a center, it slides back and horizontally at the time of a falling. The figure is the long fish which runs about trying to escape completely.

FISHERMAN・ANDAMAN185g

Dogtooth tuna in Andaman Islands+ANDAMAN310g

Jig for big fish!

An amberjack, Dogtooth tuna, Grouper is strike directly!!

ANDAMAN JIG was tested in the Indian Ocean Andaman Islands. ANDAMAN JIG was developed as an object for aiming big fish. Since the front and the rear of this jig is flat and thinly, we made resistance of sea water the minimum. The form of thin rear is designed for the purpose of the side slide like LONGJig64.

It is the jig of the new way of thinking which added the body of 64 jigs to the form of fish.

The tester had fished many big fish during the test. And the potential height of ANDAMAN JIG is proved

The characteristic of ANDAMAN600•310•250

FISHERMAN and the ANDAMAN 600•310•250 were developed as the jig only for big fish, such as Amberjack, Dogtooth tuna. A new and gentle design produces the motion which big fish like!

Speed of the allival to the super deep zone! Lightness of jerk! It is first-class even if it takes anything.

This jig were named ANDAMAN after Andaman Sea(the development test sea) that extends a super big fish' world.

Crystal WhiteJig 210g ¥2.640-

Crystal WhiteJig 180g ¥2.420-

Because the FISHERMAN Crystal WhiteJig is a tetrahedral

Crystal system, It throws out to the reception desk moreover some weight balances because it is(Center of gravity is a position of 4:6 compared with length) and the jigging swims by drawn jigging In one pitch jigging, it moves to width narrowness right and left while rolling. The water resistance is extremely little, and both Crystal WhiteJig 210g180g moves by a light rod action.

BACK SPIN JIG 50g ¥1,480- 80g ¥1,710-

Tuna, the fish of the blue color, and a dolphin are hit directly!! "It is the "the Image of flying fish fly away"

01Navy Sardine
02Blue Sardine 03All Blue
04Pink Sardine 05AI Pink
06Red/Gold 07GlowPink

If this jig is moved early, the blade attached to the back will turn violently. The figure seems to be the time of a flying fish fly away completely. Even if it moves the blade early, the jig main part is not hit the blade.

When you move this jig slowly, the angle is born to this jig, and small fish seems to escape to the water surface.

The blade is designed so that it may turn, even when it is overly slow on the triple hook.

The light and sound of this blade lure fish.

By liking of anglers, adjustment suitable for the field can be performed by changing for the big blade or the small blade.

A blade is removed and it can use also as "SAKANA JIG"

05Orange/GoldH 06Red headH

07Pink head/blueH 08Glow Pink

■ The depth maintenance stabilized by the head lip is possible! The head lip absorbs the lift the of line at the time of reeling, and depth of water is kept constant.

■ SPARKLE JIG 40g which hits directly the dolphin! It is overly effective also in Seabass of the depth water.

■ Anglers are easy to cast 22g & 16g is hit of points exactly! Although this jig is small body, this jig dive to deep place.

■ It is very effective when attacking the Seabass hiding in structure by the slow drift.

FISHERMAN SWISHER JIG**FISHERMAN****Yellowtail and bonito direct hit! Dolphin and Seabass direct hit!**

Since the delta blade is attached to the front, this jig can be used as Popper which have stable casting distance.

As soon as lift is born from rotation of a delta blade, the jig main part is wrapped in a bubble. This jig is seems to genuine fish.

Also in the time of vertical jigging, a head part shines with glitter according to the screw effect, and rotation of a delta blade fall stability. Since the figure is the small fish swim in the surface, new games start with Dolphin and Bonito, Yellowtail!

FISHERMAN

MK1 Jig**110g・90g・105gBD****FISHERMAN MK1 JIG**
MK1 JIG

MKJig series was made by advice of the glate captain K of Matsuyama.

This jig is a side slide and influence is light with the thin shape body. This jig. is only for the blue color fish such as Yellowtail, Amberjack, etc. Since MK1 jig is a thin body, its movement toward right and left is tricky!!

Resistance of water was made into the minimum with the wing edge in front and in the rear, and it was compatible in the lightness of a side slide and influence.

FISHERMAN

**MK2Jig****110g・90g・105gBD****FISHERMAN MK2 JIG**
MK2 JIG

This jig is a side slide and influence is light with the thin shape body. This jig. is only for the blue color fish such as Yellowtail, Amberjack, etc.

The square multi-plane object and the thin body of MK2 jig double glitter of light, and MK2 jig charms the blue color fish.

The knife edge of a thin body induces the movement toward right and left trickily!! Resistance of water was made into the minimum with the wing edge in front and in the rear, and it was compatible in the lightness of a side slide and influence.
